

SHORT TERM ACCOMMODATION

Ensuring comfort and safety.

Our STA site is based in Castle Hill and is close to transport and shops. We have highly trained, friendly, and reliable staff available around the clock 24/7. They support people to access the community, advocating choice and control whilst supporting to build independence, increase overall well-being, meet new people and stay overnight in a home like environment, which has Wi-Fi, Stan and Netflix in all rooms with fully ducted air-conditioning. We pride ourselves on getting to know our participants to ensure comfortability and safety, to enable independence, from their family home.

The house is situated in a community setting and creates a feeling of community inclusion.

We support people in all areas such as:

- Cooking.
- Everyday household chores.
- Learning to live with others.
- Being independent from home.
- Farm stays.
- Making new Friends.
- Community involvement and inclusion.
- We provide all food and cater to all special dietary requirements.

The STA model is a stepping-stone to allow people to learn what it is like to live away from the family home. Everyday life skills are a high priority to enable people to become more independent, meet new friends, learn to wash clothes, participate in menu planning and shopping, cooking for themselves and others, living with others and compromising on the choices to make when contributing to the running of a household.

As long as you are NDIA funded, you are eligible to come and stay at STA. Please contact Admin on 02 9630 1777 or enquiries@flintwood.org.au to visit the site and for more information.
